

PROFESSIONAL PROFILE – Strategic Finance Leader

Senior Finance Business Partner | Finance Transformation | Decision Intelligence

Senior Finance Business Partner with 12+ years' experience transforming multi-entity, multi-currency finance operations to deliver sustainable growth, ROI, and transaction impact.

Skilled in leveraging automation, predictive analytics, ERP systems, and financial modelling to provide actionable insights to CFOs and Boards, improve forecast accuracy, optimize capital allocation, and support M&A and investment decisions.

- Led multi-entity finance improvements using automation, Power BI, and advanced analytics to streamline reporting and enhance forecasts.
- Developed financial models, DCF valuations, and scenario analyses to guide capital allocation, monitor risk, and support transaction decisions.
- Managed multi-currency operations, including FX, cash forecasting, financial analytics, providing insights for investment decisions.

Professional Mindset:

- **Investigator's mindset:** uncovering root issues others miss
- **Systems-builder's eye:** designing solutions that optimize finance-operational integration
- **Strategic partner's instinct:** aligning insights with business objectives to drive growth

Professional Experience

Finance & Business Strategy Manager – (Contract) | J Segel and Associates Inc | Apr 2017 – Jan 2024 & July 2025 to current

- Delivered corporate finance advisory, FP&A insights, and strategic business planning, emphasizing investment strategy, capital allocation, and portfolio optimisation.

Key Achievements & Projects:

- Conducted investment due diligence, credit risk assessments, and portfolio oversight.
- Implemented finance transformation initiatives using ERP, and automation to enhance investment-grade reporting and decision-making.
- Applied scenario modelling and ROI-focused strategies to optimise investment and business growth outcomes.
- Delivered FP&A dashboards and visualizations for senior leadership, enabling data-driven investment and capital allocation decisions
- Supported M&A and investment transactions by building financial and valuation models, informing deal structuring and risk assessment.

Havas Group – Financial Reporting Manager | Feb 2024 – Jun 2025

Role Overview: Reported to the CFO with accountability for FP&A, capital allocation, corporate finance advisory, investment strategy execution, and multi-entity financial reporting across African operations. Delivered executive-level insights to drive portfolio performance, capital allocation, and multi-currency investment decisions.

Key Achievements & Career Impact:

- Achieved **30% faster month-end close** across **7+ subsidiaries** via ERP automation, enabling immediate CFO and executive investment decision-making.
- Improved forecast accuracy by 20% using scenario modelling and predictive analytics (Python, Power BI), guiding R150M+ portfolio and capital allocation decisions with 85%+ reliability.
- Delivered **12% cost savings** and enhanced **operational ROI for 50+ employees** through strategic capital allocation and finance process automation.
- Drove 25% projected revenue growth by translating FP&A insights into actionable business decisions, including pricing optimisation and market expansion, impacting R50M+ shareholder value.
- **Reduced portfolio risk exposure by 15%** and improved cash flow predictability through advanced credit risk oversight across **100+ investment accounts**.
- Standardized global financial data architecture by leading cross-border teams, implementing consolidated reporting, multi-currency management, and predictive dashboards for investment-grade reporting.
- Built predictive forecasting and portfolio risk models (**85%+ accuracy**) to improve revenue visibility and proactively manage investment exposure.

Key Contributions / Strategic Decision Support:

- Delivered actionable insights enabling **25% projected revenue growth**, optimized capital allocation, and strengthened governance frameworks for high-value investment decisions.
- Liaised with internal and external auditors on multi-entity financial reporting, IFRS compliance, and process controls to ensure robust audit outcomes and regulatory adherence
- Partnered with auditors to review controls, validate multi-currency consolidations, and support investment-grade reporting across subsidiaries.
