AREAS OF STRENGTH

Optimizer – Drives financial efficiency, profitability, and risk mitigation by streamlining finance systems, optimizing processes, and aligning operating models with strategic and capital allocation objectives.

Demonstrated delivering of measurable cost savings, faster close cycles, and improved forecast accuracy.

Investigator & Assessor – Identifies hidden risks, control gaps, inefficiencies, and growth opportunities through rigorous financial analysis, credit and compliance assessment, portfolio review, and due diligence. Strong capability in evaluating investments, assessing downside risk, and strengthening governance and decision quality.

Analytical Problem-Solver – Delivers actionable solutions to complex financial and business challenges using structured analysis, scenario modelling, and predictive analytics.

CAREER EXPERIENCE

Financial Reporting Manager Havas Group | Feb 2024 – June 2025

Role Overview: Reported to the CFO with accountability for group financial reporting, FP&A, governance, and regulatory compliance and governance across multiple African markets. Delivered executive-level insights to support capital allocation, portfolio oversight, and strategic decision-making in multi-currency, cross-border environments

Key Contributions:

FP&A & Investment Analysis: Led budgeting, forecasting, and variance analysis across USD, GBP, EUR, and NGN operations. Performed DCF and WACC valuation to support portfolio oversight and disciplined capital deployment

ERP Transformation & Automation: Migrated multi-entity financial operations to Adams ERP; automated reporting workflows and integrated cross-currency data. Achieved 30% faster month-end close and 12% cost savings.

Predictive Revenue & Risk Analytics: Built advanced predictive forecasting and credit risk models to enhance revenue visibility and proactive risk management with 85%+ accuracy, enabling proactive investment and risk management.

KPI Automation & FP&A Dashboard: Developed near real-time visualisations in Python and Power BI, reducing manual reporting effort by 30%, improving forecast accuracy by 20%, and supporting scenario-based executive decision-making.

Strategic Decision Support: Delivered actionable insights that enabled 25% projected revenue growth, optimized capital allocation, and strengthened internal controls and governance frameworks.

ERP Transformation & Automation – Havas Group | 2024:

Migrated multi-entity financial operations to Adams ERP, automating reporting workflows and integrating cross-currency data.

Achieved 30% faster month-end close and 12% cost savings.

Developed Power BI dashboards to track KPIs, scenario outcomes, and capital allocation.

Predictive Revenue & Risk Analytics – AI Internship | 2025

Built advanced predictive forecasting and credit risk models to improve revenue visibility and proactive risk management (analytics-led, business-owned).

Achieved 85%+ model accuracy, enabling proactive investment and risk management decisions.

Visualized insights in Python and Power BI dashboards for executive decision-making.

Investment & Valuation Simulation – Forge Virtual Projects | 2025

Conducted multi-scenario DCF and WACC analyses for simulated portfolio investments.

Applied scenario modeling to recommend capital allocation strategies.

Results informed risk-adjusted investment decisions in simulated cross-border projects.

KPI Automation & FP&A Dashboard – Havas Group | 2024–2025

Automated reporting across multiple ERP sources; created near real-time dashboards for management and CFO review.

Reduced manual reporting effort by 30%, improved forecast accuracy by 20%, and enhanced transparency for decision-making.

Achievements:

Reduced month-end close cycle by 30% and improved forecast accuracy by 20%.

Enabled 25% projected revenue growth through FP&A-led insights and investment analysis.

Built finance-ready, visualizations using Python and Power BI to support forecasting, risk assessment, and strategic decision-making.

Additional Skills: Scenario Planning | Capital Allocation | Stakeholder Engagement | Financial Governance & Compliance | Basel III & Liquidity Risk Knowledge | Forensic Accounting | Shared Services & ERP Process Automation | KPI Dashboard Design | Root Cause Analysis | Mentoring & Succession Planning | Project Leadership | Change Management | Continuous Improvement

FINANCIAL SYSTEMS & ANALYTICAL TOOLS EXPERTISE

ERP & Accounting Systems: SAP, Oracle, Adams, Sage Pastel, QuickBooks, Xero, Navision, Magnitude

Business Intelligence & Analytics: Power BI (DAX, Power Query, visualization, reporting), Advanced Excel (pivot tables, macros, financial modelling), Tableau

Financial Platforms: SARS e-filing, Chase, Accpac, Pastel Payroll, Valuation software, IFRS reporting systems

Additional Attributes: Strategic thinker | Results-oriented | Data-driven decision-maker | Analytical | Proactive & innovative | Strong communication & interpersonal skills | Detail-oriented | Systems & risk-aware-focused | Strong interpersonal & communication skills | Attention to detail | Professional curiosity | Systems & risk-aware

CAREER EXPERIENCE

Finance & Business Strategy Manager – J Segel and Associates Inc | July 2025 to December 2025

Delivered corporate finance advisory, FP&A insights, and strategic business planning for SMEs and high-growth clients.

Key Achievements & Projects:

Conducted credit risk assessments, portfolio oversight, and investment due diligence.

Implemented finance transformation initiatives using ERP, AI, and automation tools to improve reporting and decision-making efficiency.

Applied scenario modeling to support capital allocation and ROI-focused investment strategies.

Delivered actionable FP&A insights and dashboards for senior leadership.

Finance & Advisory Leadership (FASSET) – DK Motiram & Company | Mar 2014 – Mar 2017

Provided strategic financial advisory, FP&A, and corporate finance support for multiple clients, including M&A engagements and cross-border operations.

Key Achievements:

Delivered process improvements, budgeting, forecasting, and variance analysis across client portfolios.

Supported investment strategy, portfolio management, and risk mitigation initiatives.

Advised clients on capital allocation decisions based on scenario planning and financial modeling outcomes.
